

Level 1

Basic Training

*Using Meridian Stress Analysis to
practice Preventative
Healthcare*

WELCOME

General Information you will want to know while here

- ▶ Sign In Sheet
- ▶ Location of Alkaline Water Machine
- ▶ Location Of Restrooms
- ▶ Location Of Snack Items
- ▶ Lunch Arrangements

- ▶ See Buffy for Items being purchased

Orientation & Discharge Video

Information that is beneficial for you and your clients

This can be found on the Natural Solutions website www.naturalsolutionsphc.com click on Qest4 then click on training protocols. It is also on the USB we give out in training. You may use this for your clients to preview prior to being tested. There is pertinent information and contains another disclaimer.

Clinical Tips

Understanding Homeopathics

- ▶ History of Homeopathy & How it Works
- ▶ SEE VIDEO 46 Lecture on Homeopathy

This provides a simple explanation of Homeopathy for your clients. Great for them to watch on their initial visit.

History Of Meridian Stress Analysis

- ▶ 1950's Dr. Voll developed this technology to address more causational issues vs. treating symptomology
- ▶ Based on Chinese Acupuncture. Energy channels mapped out in the body over 4000 years ago. Balanced energy pathways equate to healthy organs, glands and body systems.
- ▶ By balancing the energy in the meridians you give the body what it needs to heal itself
- ▶ MSA is a computerized version of Dr. Voll's work

Basic ASYRA/Qest Information

- ▶ Setting up the Hardware
- ▶ Charging the Asyra/Qest4

The battery has no memory so you can recharge at any time

NOTE: The system will not connect while the battery is charging

- ▶ Turning the volume up/down
- ▶ Installation Of Software/Must have good internet connection and all computer updates must be done prior to the install.

ERROR MESSAGE Unable to Connect to Comport

BLUETOOTH

Make sure machine is turned on

Make sure comport is on Auto-Find

Make sure only one Qest4 application is
open at a time

Make sure device is paired with computer
via Bluetooth

Make sure the electrodes are not being
held during startup of program

ERROR MESSAGE Unable to Connect to Comport

HARDWARE

Make sure machine is turned on

Make sure comport is on Auto-Find

Drivers may need to be reinstalled
correctly if this is first time use

Make sure only one Qest4/Asyra
application is open at a time

Make sure the electrodes are not being
held during startup of program

Possibly faulty USB cable or Port

Make sure USB wire is plugged in correctly

Initializing Electrode Error

Bluetooth

Built in electrodes

Too much moisture or not enough moisture on hands

Signal not transmitting due to neurotransmitter issues, circulation problems, hydration issues, overmedicated

Optional Wired Electrodes

Electrodes are not plugged in all the way or are plugged in backwards

Breaks in wire connected to electrodes

Initializing Electrode Error

Hard Wire

Too much moisture or not enough moisture on hands

Client not hydrated well

Signal not transmitting due to neurotransmitter issues, circulation problems, hydration issues, overmedicated

Electrodes are not plugged in all the way or are plugged in backwards

Breaks in wire connected to electrodes

Back Up

- ▶ Back Up (Keep offsite back up on a thumb drive or external hard drive) You can go to the C drive and copy the Qest File and paste to a thumb drive or external hard drive. If you are testing on a thumb drive be sure to keep a back up of that as well.
- ▶ It is a good idea when you get your program set up like you want it (items in custom lists and tests you develop) to make a Master on a USB and your Desk top.
- ▶ See Video 5

Web Update

- ▶ If connected to the internet the system automatically checks for updates when you bring up the Qest application. If updates are available it will ask you if you want to update. If it is convenient; do so. If not you may force an update when it is convenient. To do this: Click on File then Web update (the system will check for updates) If you want to force an update Click on File then Web update and when it checks for an update if none are available it will come back No Update Available and Force Update will be found beside Qest4 Application and Product data base Click on Force Update

Web Update Report

- ▶ Go to File then Web Update Report and it will advise you of what is found in each update (You must be on the internet to view this report). It will also point you to videos to watch for procedural changes and new features.

Basic ASYRA/Qest Information

- ▶ Entering/Changing Clinic or Tech Info
- ▶ Add, Change, Delete Client Info

SEE VIDEO 6 for additional Information

Contact Information

- ▶ Natural Sol- 229-777-7712
- ▶ info@naturalsolutionsphc.com
- ▶ For support: support@naturalsolutionsphc.com Click on Support Tab then complete the support ticket and submit and the IT department will contact you. Hours are Monday through Thursday 9am to 5pm EST and Friday 9am to 5 pm Mountain Time
- ▶ carol@gest4.com

General Info

- ▶ New Client Forms
- ▶ Setting up Client Charts
- ▶ Testing info for New Clients

RE: Clinical Appraisal (handout),Clinical App Indicator Key (handout) Well
Balanced Body (handout)

Accounting / Recordkeeping

- ▶ Finding a program for recordkeeping
- ▶ Sales Tax
- ▶ Maintaining Inventory

Product Ordering

Natural Solutions Whsle E-Mail: wholesale@naturalsolutionsphc.com

- Fax: 229-776-6467
- Phone: 229-272-1128

First Fitness - Go through Natural Solutions Whsle Div. to try the products. We will sell to you at our cost. Once you try them we will assist you in sign up.

- ▶ Energique (first time ordering ask for (Toni) Tell them you have completed the Natural Solutions Training Course. This is only available if certification has been completed and submitted for non-licensed practitioners. Phone: 800-869-8078 Fax: 800-503-2588
- ▶ Peter Gillham's Natural Vitality 1-800-446-7462 ext 135 Natural Calm & Natural Calm & Calcium
- ▶ Iherb website: www.iherb.com

Amplification Level Weakened to Stressed Scale

See Page 19 Handout Book

- ▶ 45-55 is considered within normal range
- ▶ 44 or less is yellow and indicates weakness
- ▶ 56-100 is red and indicates stress
- ▶ SEE VIDEO 7

Note the Amplification level runs from normal to 1 - 15.
The higher the amp level the more deep rooted the issue.
The is only relevant on the comprehensive because once
the individual receives frequencies everything changes.

Filter Options

SEE VIDEO 9

Dilution Differences in Individual /Multi Chord/MFG
(choose individual) This gives you additional information based on the Dilution Guideline chart.

Quantity Difference between Group
(imprint)/Individual/MFG (choose group) This information will average the number of drops for the remedy being made for the individual.

Duration Difference in Weeks / Mfg (choose weeks) This information will tell you the number of weeks it will take for the energy to shift and the body to remain at homeostasis if the remedies are taken as instructed.

Dilution Guidelines Handout

This is in reference to the Filter options above and why you should choose individual.

SEE PAGE 20 Handout Booklet

SEE VIDEO 10

3 Types Of Scans in Protocol

- ▶ Causational test known as Comprehensive
- ▶ Main Body Supplement Recommendation Scan for symptom and maintenance
- ▶ Informational Scan
 - i.e. All Vertebrae that are out of alignment
 - Vitamin, Mineral, Enzyme, Fatty Acid, Amino Acid etc. deficiencies
 - Hormonal and Neurotransmitters Imbalances

SEE VIDEO 11

Protocol

Refer To Handout Book Starting Pg 21 For STEP BY STEP

1. Comprehensive, Imprint Specifics

Imprint Specifics is the directions for Imprinting (ie Individual, Multi Chord or Both and the amount of time)

2. Main Body Scans and Male or Female Reproductive Scan, Multi Vite
3. Imprint Specifics, Informational Scan (includes Miasm, Emotional Stressors, Neurotransmitter Profile, Vertebral Profile, Dental Resonance, Nutritional Maintenance, Lyme & Hormonal

Balancing the Baseline

- ▶ When you run the comprehensive and the baseline when the test is complete; click on the baseline tab and make sure the Post Test is balanced. This is the status of the body after the frequencies were applied to the person being tested. If there are areas that are not balanced make note of what they are and go to the Filters Tab on left side and then click on the Filters tab up top and type Baseline and select each area that was out of balance and it must say Baseline Filter. Example: If the Adrenals were out then type in Baseline and search / you should see Adrenals - Baseline Filters and this is the one you select and scan. The system will pick the frequencies necessary to achieve balance but the Post Test will NOT change. SEE VIDEO 12

If a client is heavily medicated you take the following steps

- ▶ Pain Medications, Anti-Depressants, Anti-Psychotic Drugs, ADD/ADHD Medications can cause an individual's body to not be able to respond to the frequencies being sent. If you have someone who's baseline is mostly green and very little shows up and you know they should have many issues; run a comprehensive and balance the baseline and imprint their hand. Go to the Laser feature and test to see if Laser Treatment was effective (even though you did not use the laser). If it does not come back RETREAT they should be able to respond. Run a new comprehensive and baseline and proceed as normal.

Running Break Out Scans

- ▶ If you would like to target a specific area you can do a next visit and choose a specific Organ or Gland etc. to run so that you may find additional items affecting the targeted area which are not ready to be addressed in the comprehensive.

Break Out Scans

- ▶ Always run separately by doing a next visit.
- ▶ Breakout scans for specific organs and glands, or specific areas of the body are very effective when imprinted in a laser; and the specific area is targeted with the laser.

Dosing

- ▶ Go into Filters
- ▶ Left Click on Quantity
- ▶ Right Click
- ▶ Select scan
- ▶ Capsule, Teaspoon, Tablespoon, Pellet
- ▶ Note herbs 1 teaspoon = 45 drops
- ▶ 2 Tablespoons = 1 oz.
- ▶ See suggested dosage chart

VIDEO 14

Acute or Chronic Conditions

- ▶ If a person is assessed and found to be in an acute or chronic condition the dosage will need to be adjusted to get relief from symptoms and quicker reversal of issues. You may give the remedies every hour, 3 to 6 times daily depending on your judgement. When relief or reversal occurs then client can drop to a normal dose.

Dosage Guidelines Handout

- ▶ Liquid Herbs 35-175 drops 2-3 times daily
- ▶ Herbs in Capsules 2 to 6 capsules daily
- ▶ Homeopathics/Detoxifiers 1-12 drops 2 to 3 times daily
- ▶ Each detox should be accompanied with 2 drainage remedies (herbs or homeopathics)
- ▶ When giving a detox educate the client on what can be expected when detoxing. Encourage water intake for detox

Imprint Specifics

Run this test to determine how long to imprint
and to see if the dilution should be single or multi-chord or
both

Imprinting

Imprinting is transferring balancing frequencies from a Hold Tank into a medium

The Comprehensive should always be imprinted!

In the Filter screen hit Test Plate Select Current Dilutions or Multi Chord then Hit Imprint and select the appropriate time. If individual and multi chord do current dilutions first and then multi chord into 1 remedy.

Note: The items that are checked are all the frequencies that will be transferred. You can uncheck your imprint “recipe”

Note: This can be done in a liquid medium, to the hand, or the laser

Making A Schedule

- ▶ Review the comprehensive analysis

These will be your CAUSATIONAL Issues

- ▶ Imprint the comprehensive into an alcohol based liquid medium. Review for Nutritional items that are V,X, K, C dilutions and be sure to supplement.
- ▶ Review the Main Body, M/F Reproductive, Multi Vite scan. All V - X Dilutions should be considered. K and C Dilutions 50% of the time depending on the number of V's and X's (you do not want to overwhelm the client with too many items)
- ▶ Review Info scan looking for nutritionals that are V-X dilutions and make sure you have covered in your recommendations.

Patient Schedule

- ▶ *Helpful to client if you indicate out to the side what remedy is used for.*
- ▶ *Highlight areas of importance*
- ▶ *Note what remedies imprints are in and what is imprinted in the remedy.*
- ▶ *Note the number of weeks the imprint is to be taken*
- ▶ *List Chiropractic Issues or any other recommendations*
- ▶ *List Re-Evaluation Date*
- ▶ **SEE VIDEO 16**

How to Create a Schedule on the Qest System

- ▶ Go to File in the top left hand corner in the Client Screen
- ▶ Click on Clinic Information and a box will pop up and at the bottom of the box place a check mark in the Show Report Schedule. Save this information and Close the Box. . This will stay from this point forward unless you change it.
- ▶ Go to the Report Tab on the left hand side and then to the Schedule Tab up top and click on it. (If you do not see the schedule tab complete 2nd step above.)
- ▶ This feature allows you to generate a schedule on the Qest System.

Client Schedule and Recommendations

Handout Book PG 7

- ▶ Herbs & Homeopathic remedies between meals. Nothing 15-20 minutes before or after taking other than water.
- ▶ Digestive enzymes before you begin to eat meals. Support items should be taken with meals.
- ▶ If you are instructed to take fiber or a colon cleanse take away from supplements and pharmaceuticals.
- ▶ Take supplements and pharmaceuticals at least 1 hour apart.
- ▶ Unless otherwise instructed stay on all supplements until reevaluation.
- ▶ If you are unsure about taking supplements ask your physician.

Natural Solutions For PHC
 204 West Pope Street
 Sylvester, GA 31791
 229-777-7712

Schedule*
 3/8/2017

Product	Organs/Glands/Toxins/ Systems Addressed	When Arising	Break- fast	10:00 am	Lunch	3:00 pm	Dinner	Before Sleep	No. of Bottles	No. Per Bottle
Liquid Life Plus	Multi Vite		1 oz							
Circulatory Health	Circulation							1 oz		
Lymphdrainex Imprint Comp	Lymphatics	10 drops				10 drops				
Bactestat Imprint Info	Bacterial Detox	10 Drops				10 drops				
Cats Claw	Immune Support		2				2			
Endocrine and Pancreas	Support		1		2		1			

SPECIAL INSTRUCTIONS:

1. Drink half of your body weight in ounces of alkaline water each day.
2. Make sure you are eliminating at least once daily, if you are not, contact practitioner.
3. Stay on all products until re-evaluation unless otherwise noted in No. of Bottles section above.
4. If detox is too harsh, start with 1 drop and work up to desired dosage.
5. If you are unsure about using this supplementation, you should contact your primary care physician before starting your program.

*** THE INFORMATION ON THIS REPORT IS RELATED TO ENERGETICALLY BALANCING THE BODY AND IS NOT MEANT TO BE DIAGNOSTIC OR REPLACE THE ADVICE OF YOUR MEDICAL PHYSICIAN.**

Additional Comments:

1. Circulation 2. Toxicity - Bacteria 3. Pancreas Primary Issues
 When Bactestat remedy finished, do not refill.

Prac: LRB

Biological Sample Office Visit

Machine Techniques

- ▶ How to set up custom remedies in your data base
 1. Restless Leg
 2. Headache
- ▶ How to scan to see what specifically is affecting a tooth
- ▶ How to see if a condition is a match for an individual
 1. Diverticulosis
 2. Conjunctivitis
 3. Arthritis

What to expect when you Detox

Handout PG 6

- ▶ Detox symptoms may occur (headaches, nausea, diarrhea, constipation, flu like symptoms, fatigue, joint pain) Rest and take adequate drainage as recommended by your technician.
- ▶ If you experience constipation contact your technician. All elimination channels need to be working properly during the detox process.
- ▶ If the detox is too harsh reduce the dosage to half and increase drainage

Doing Your Part

NO MAGIC PILL

- ▶ Addressing dietary issues

Eat raw fruit & dark green leafy veggies, whole grains, seeds & nuts

Avoid soft drinks, coffee, refined sugar, refined flour, artificial sweeteners, fast foods (dead foods)

- ▶ Managing Stress

- ▶ Getting adequate sleep (8 hours uninterrupted)

- ▶ Adequate Water intake

- ▶ Exercising 20-30 minutes daily 6 days a week

Printing Reports

- ▶ Language Options
- ▶ Creating a PDF to email
- ▶ To view a report and see if you want to print it, Click on the report tab and go to the top and click on each tab and preview the report and it will show you what is in each report and you can determine if this is something you would like to print for the client.
- ▶ For New Evaluation Reports Click on the Link provided and put a check beside items that are applicable. Submit and Print or Create a PDF

See Video 17 and Video 45

Printing Options

- ▶ In the print menu you can determine what you want to print by placing a check mark next to the item you want printed. If you do not want to print something uncheck it.
- ▶ Also if there is something within the hold tank in filters that you do not want to print uncheck it and it should not print. Make sure to preview because sometimes it does not reset. If this is the case simply get out of the client and go back in and preview and it should reflect your changes.

Creating PDF's

This will allow you to send Asyra/Qest Reports via email.

Instructions vary depending on the Windows version you are using. If using Windows 8 or 10 you will need to download windows PDF exchange viewer and this can be found on your thumb drive or on the internet. Select the FREE version if getting off the internet.

SEE VIDEO 18

Reading the Asyra/Qest Report

- ▶ **Amplification Level:** The Asyra/Qest scans to determine the level your body can tolerate in coping with toxins/pathogens that are present. The higher the amplification level the more “deep rooted” the issues.
- ▶ At the top of the report in the center in bold print indicates the **TESTS** that are being scanned.
- ▶ SEE VIDEO 43 and 43A along with next slide

Reading the Asyra/Qest Report

- ▶ On the left hand side there will be different colored blocks. If there is a *red* block the item being tested is creating a stressed, inflammatory and or toxic condition in the body. If a *yellow* box is present then the item being tested is weakening the body. The *green* box underneath is the “remedy” which balances that particular item.
- ▶ On some individuals there are *too* many issues to address them all so the technician will allow the system to prioritize the issues and address the most important items. In most cases when the most important issues are addressed the other items take care of themselves.

Understanding the Comprehensive Analysis

Refer to Handout Book Pages 26-34

Refer to Handout Manual PG 113 for Helpful Guide

Keep this handout available until you learn the meaning of the items in the comprehensive

THE COMPREHENSIVE IS ALWAYS IMPRINTED!

See Video 45A and 45B

Understanding The Comprehensive Analysis

- ▶ What are causational issues? Those Issues causing the most dis-resonance in the body. Root Issues. i.e. Thyroid Disturbance shows up but it is a Cervical 7 issue. Pituitary Imbalance but it is a Manganese Deficiency. Heart Issue but it is caused by a potassium deficiency. Liver Issue caused by a Viral condition.

Comprehensive Analysis

- ▶ Allergen Sensitivities

Imprint in Allerstat I if food allergy

Imprint in Allerstat II if inhaled allergy

May want to run additional scans for imprinting

- ▶ Antibody Disturbance - body is creating antibodies for pathogen

Could be Viral, Bacterial, Parasitic, Fungal, Environmental, Food Related

Comprehensive Analysis

- ▶ Bacterial Signatures

Imprint in Bactestat

- ▶ Bioavailability Disruption - Ability to absorb and assimilate. Imprint in liquid medium- Check Digestion - Enzymes, probiotics, aloe, slippery elm etc.
- ▶ Cell Permeability - Ability to move into cell membrane. Imprint in liquid medium. Essential Oils helpful

Comprehensive Analysis

- ▶ Cell Salt Imbalance - 12 major cell salts works at a cellular level. Imprint in a liquid medium or use homeopathic cell salt.
- ▶ Chakra imbalance - Energetic Block. Could be emotional or physiological. Imprint or recommend energy work. Essential Oils beneficial See Handout Book PG35-36
- ▶ Chemical Toxicity I & II
Environmental/Pharmaceutical/OTC meds/Recreational Drugs. Imprint in Chemstat

Comprehensive Analysis

- ▶ **Chromosomal Sarcodes** - When DNA or RNA is weakened due to **oxidative stress** in the body. These remedies give the body the optimum blue print for reproduction of chromosomes
- ▶ **Circulatory Disturbances** - will indicate homeopathic circulation remedies that will be imprinted. The main body scan will generally call for chelators or some other remedy for circulation.

Comprehensive Analysis

- ▶ Color Therapy is various frequencies that cannot be processed by the body and causes physiological symptoms. Colors which have altered immune responses similar to an allergy field. Imprint Only
- ▶ Constitutional Weakness-Help with overall cohesiveness of the body. Imprint Only

Comprehensive Analysis

- ▶ Dental Dis-resonance - **Infection** indicates there is infection in the meridian. **Associated Organ** indicates energy backflow from areas in the same pathway as the tooth. **Decay** indicates decay in the tooth. **Associated Vertebrae** means a related vertebrae is affecting the tooth. **Occlusal** Disturbance indicates a bite issue. **Associated Physiology** is indicated when there is a energetic disturbance in a related organ. **Toxicity** is indicated when there is some type of dental material or pathogen affecting the tooth. **Cavitation** is indicated when there is a cavitation in the tooth.

Comprehensive Analysis

- ▶ Dietary Scan - Originally based on blood type. It will select the diet best for the client. If individual is balanced it will go to true blood type. See Handout Book PG 37-38
- ▶ Digestive Maladies - homeopathic remedies which address digestive disorders. Should be indicated on the Main Body Scan as supplementation/detox needed.
- ▶ Drainage Block-remedies for drainage in different areas of the body. Lymphatic Issues.
- ▶ Electrolyte Disturbance - Imbalance in salts

Comprehensive Analysis

- ▶ Fatty Tissue Disturbance - Indicates remedies to assist in cleansing the liver & gallbladder
- ▶ Food Additives - Remedies for detox for common food additives used in our foods.
- ▶ Food Sensitivities - Indicates food categories in which the client is sensitive. Imprint in Allerstat I
- ▶ Fungal Signatures - Indicates fungal pathogens present in the system. Imprint in Fungistat I or II

Comprehensive Analysis

- ▶ **Genomes** indicates areas of concern in DNA, RNA or PNA (Cellular structure)
- ▶ Geopathic Stressors - **Aqueducts**- energy fields which run underground that individuals may be sensitive to. **Earth Fields** - energetic grids that individuals are sensitive to. **Electromagnetic** - man made energy fields such as lighting, computers, cell phones etc. **Mineral Deposits** - different minerals carry energy fields which individuals may be sensitive to. **Power lines** - energy from power sources

Comprehensive Analysis

▶ Harmful Energies-

1. Electromagnetic - above or below ground
2. Microwave
3. Radon Gas - accumulates in basements
4. Radioactive
5. Ultraviolet
6. X-Rays

Imprint in Terrestristat

Safe Connect Plus +

- ▶ www.naturalsolutions.safeconnectplus.com
- ▶ Our Affiliate ID: 1502680
- ▶ SEE Introduction to SAFE CONNECT on USB thumb drive

Comprehensive Analysis

- ▶ Heavy Metal Burden - will check heavy metal burdens in the body indicating most prevalent

Imprint in Metal detoxifier or use chelators . Zeolite is a great way to remove Heavy Metals from the body.
Metalstat is a detoxifier for H Metals and can be used.

Homeopathic Similium - Over 1400 homeopathics which can be imprinted as a remedy

- ▶ Hormonal Imbalances-Variou hormonal imbalances. These can be imprinted in Phenolics or other liquid mediums

Comprehensive Analysis

- ▶ **Immune System-** this will indicate homeopathics that may be used to boost one's immune system when needed. Imprint remedy
- ▶ **Inflammatory Issues -** Homeopathics to aid in removing inflammation from the body. Imprint and/or give herbal drainage
- ▶ **Lyme Bacteria -** Imprint Lymestat If V,X,K,C Dilution Consider Lyme Protocol if they are having the symptoms of Lyme

Comprehensive Analysis

- ▶ Mental & Emotional - Bach Flower remedies to assist in emotional balancing. Use Bach remedies or imprint. See Handout Book PG39
- ▶ Meridian Disturbance - Energetic pathways not functioning. Imprint
- ▶ Metabolic Disruption/Disturbance- remedies that deal with the metabolic processes of the body. Imprint

Comprehensive Analysis

- ▶ **Mesenchyme** - brain stem cells used to rebuild damaged organs or gland. Imprint
- ▶ **Miasm** - Inherited predispositions. Imprint
- ▶ **Musculoskeletal Weakness** - Remedies to strengthen musculoskeletal system
- ▶ **Mycoplasma Signatures** - Pathogens should be imprinted
- ▶ **Mycotoxins** - Toxins excreted by pathogens while in the body. Chemical Toxins. Imprint in Chemstat

Genetic Miasms

- ▶ Miasm - Inherited predispositions for weakness or illness in certain areas of the body. Imprint

You NEED to learn all the names for each of these.

Syphilinum - Syphilis Miasm / Luesinum Bacteria

Sycosis - Gonorrhoea Miasm / Gonococcinum Bacteria also known as Medorrhinum

Psorinum - Tuberculosis Miasm / Tuberculinum Bacteria

Carcinosi - Cancer Miasm

Comprehensive Analysis

- ▶ Neurological Imbalance - Neurotransmitter imbalances. Imprint
- ▶ Non- Vertebral Misalignments - Chiropractic or physical therapy
- ▶ **Oxidative Stress** - The body's response to the environment. Indicates a need for antioxidants
- ▶ Parasites - Parastat and/or Artemesiacom

Comprehensive Analysis

- ▶ Phenolics - homeopathic remedies used to desensitize to certain allergies.
- ▶ PH - Body's Systemic PH needs. PH Alkali means too acidic. PH Acidic means too alkaline
- ▶ Polarity Balance - Indicates the spin of an individuals electrons are reversed. Imprint remedy.

Comprehensive Analysis

- ▶ Protozoa - Indicates a “waterborne parasite”
- ▶ Prion Signatures - Disease signatures passed down. Example: Mad Cow Disease passed through eating meat.
- ▶ Respiratory - Homeopathic remedies to support the respiratory system.
- ▶ Sarcoid Weakness - indicates a weakness in the tissue. Imprint homeopathic. May want to consider glandulars for support

Comprehensive Analysis

- ▶ Skin Afflictions - homeopathic support for various skin conditions
- ▶ Sleep Disturbances - remedies for sleep issues.
- ▶ Vertebral - Indicates vertebrae issues that are CAUSATIONAL and need to be addressed by a chiropractor.

Contraindications

- ▶ Natural Blood Thinners - Gingko, Alpha Ortho, Fish Oils, Vitamin E. Not to be used with Warfarin or Coumadin
- ▶ Tryptophan or 5HTP - Do not use if individual is on an anti-depressant
- ▶ Vitamin K should not be used with Coumadin/Warfarin
- ▶ Ortho Phosphoric Acid - Specifics

Contraindications cont...

- ▶ Licorice can elevate blood pressure if used long term.

SEE Herbs and drug interaction handout book Pages 46-47

Politics of Alternative Therapy

► Do's & Don'ts

We do not diagnose or treat disease

We do not present or make the impression that we are physicians unless indeed we are.

We do not take anyone off medication or even suggest they adjust their medications, they must see their physician for medication changes

We do balance the body energetically and adjust unhealthy energy patterns in the body.

We do provide scientifically supported information and research to assist and educate our clients.

We do provide information on other modalities that will assist our clients in achieving their healthcare goals.

Politics of Alternative Therapy
